

WCRA Experience Rating Excel Template Instructions

The WCRA has created an Excel file template to facilitate organizing and uploading data for the experience rating process. To have a successful upload, it is important for the template to adhere to the specifications below.

Please Note: Starting with policy year 2025 reporting (completed in Q3 2024), the template has changed so that there are no longer separate “Medical Only” columns for Paid and Reserve amounts. The template has been simplified so that Paid Medical amounts will always be added to the Paid Medical field (column E) and Medical Reserve amounts will always be added to the Remaining Medical Reserve field (column G). Medical Only claims will be identified by adding an “X” to the Medical Only flag field (column I).
